DETAILED ACTION

Allowable Subject Matter

1. Claims 1 and 3-18 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art does not specifically disclose the combination of limitations of claim 1: a security system comprising a detection means for radiating light or an electric wave to a prescribed area, receiving a wave reflected by an object, and obtaining at least a relative speed and location of said object, an imaging means for picking up image information of the prescribed area, a moving means for changing the imaging direction of said imaging means a control device that determines from the relative speed if said object is an intruder or moving- away candidate, and a recording device that starts recording when said control device determines that said object is an intruding object, wherein said moving means is controlled according to the relative speed and location of said object so as to direct the imaging direction of said imaging means toward said object, and said detection means determines the relative speed of said object and transmits an electric wave from one transmission antenna and receives the signal by two receiving antennas to detect the azimuth of the target.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
